(1) Depreciation and amortization is net of the amortization of lease incentives.

(2) Beginning in fourth quarter of fiscal year 2015, Issuances under share-based compensation plans are reported gross from Withholding tax payments related to vesting of stock units in the Condensed Consolidated Statements of Cash Flows.

(3) Free cash flow is a non-GAAP financial measure. We believe free cash flow is an important metric because it represents a measure of how much cash a company has available for discretionary and non-discretionary items after the deduction of capital expenditures, as we require regular capital expenditures to build and maintain stores and purchase new equipment to improve our business. We use this metric internally, as we believe our sustained ability to generate free cash flow is an important driver of value creation. However, this non-GAAP financial measure is not intended to supersede or replace our GAAP results. Free cash flow for fiscal 2017 is further adjusted for insurance proceeds related to loss on property and equipment, as our cash used for purchases of property and equipment in fiscal 2017 includes certain capital expenditures primarily related to the rebuilding of the Company-owned distribution center in Fishkill, New York, which was impacted by the fire on August 29, 2016.

(4) Fiscal years 2017 and 2016 reflect the retrospective adoption of ASU No. 2016-18 as of the first quarter of fiscal year 2018.

(5) Includes restricted cash beginning in fiscal year 2016.
